

Dear Staff and Students,

Re: The 19th Confirmed Case of Human Swine Influenza (Influenza A H1N1) Infection

Another confirmed case of Human Swine Influenza Infection was reported on 9 September 2009. The cases involved a student studying in Town Centre who was confirmed on 9th September 2009 to have been infected with the HSI (H1N1) virus. He is now staying home pending recovery. The Town Centre classrooms and the associated public areas had been thoroughly cleansed with disinfectant. Staff and students are once again reminded to be vigilant in taking personal hygiene measures to avoid being infected as well as to curb the transmission of human swine influenza:

Thank you for your attention and cooperation.
