

Dear Staff and Students,

Re: The 24th and 25th Confirmed Cases of Human Swine Influenza (Influenza A H1N1) Infection

The 24th and 25th confirmed cases of Human Swine Influenza Infection were reported on 10 September 2009. The cases involved 2 hall students who were confirmed on 10th September 2009 to have been infected with the HSI (H1N1) virus. They are now staying home pending recovery. The affected hall units and the associated public areas are being thoroughly cleansed with disinfectant. Staff and students are once again reminded to be vigilant in taking personal hygiene measures to avoid being infected as well as to curb the transmission of human swine influenza.

Thank you for your attention and cooperation.
