

Dear Staff and Students,

Re: 8th Confirmed Case of Human Swine Influenza (Pandemic H1N1 2009) Infection

The 8th confirmed case of Human Swine Influenza Infection was reported on 4 September 2009. The case involved a hall student who was confirmed on 3 September 2009 to have been infected with the HIS (H1N1) virus. The student is now staying at home pending recovery. Her hall unit and the associated public area will be thoroughly cleansed with disinfectant. Staff and students are again reminded to be vigilant in taking personal hygiene measures to avoid being infected as well as to curb the transmission of human swine influenza: Please note that details of the general advices on the said measures have been issued earlier today in a separate intranet / email message.

Thank you for your attention and cooperation.
