

Dear Staff and Students,

**Re: 9th Confirmed Case of Human Swine Influenza (Influenza A H1N1) Infection**

The 9th confirmed case of Human Swine Influenza Infection was reported on 7 September 2009. The case involved a hall student who was confirmed on 6 September 2009 to have been infected with the HIS (H1N1) virus. The student is now staying at home pending recovery. His hall unit and the associated public area will be thoroughly cleansed with disinfectant. Staff and students are again reminded to be vigilant in taking personal hygiene measures to avoid being infected as well as to curb the transmission of human swine influenza:

Thank you for your attention and cooperation.
