

A Second Case of Confirmed Human Swine Flu (Influenza A, H1N1)

To all Staff & Students,

A second case of confirmed Human swine flu (Influenza A, H1N1) involving a part-time BEd (Special Needs) student was reported by phone to the Town Centre office yesterday. The victim had only attended a course which was conducted in the Town Centre Campus Rooms TC207 and 228 on 7th and 8th July 2009 respectively. The two rooms were immediately cleaned with disinfectant upon notification. The last day he attended lecture was on 8th July 2009.

Staff and students who experience any flu-like symptoms are again reminded to wear masks while inside the Institute campus areas, and to seek medical treatment / advice where necessary while those with additional signs of fever should stay home instead.

Thank you for your attention.
