

Dear Staff and Students,

Re: The 29th Confirmed Case of Human Swine Influenza (Influenza A H1N1) Infection

The 29th confirmed case of Human Swine Influenza Infection was reported on 11 January 2010. The cases involved a staff who was confirmed on 8 January 2010 to have been infected with the HSI (H1N1) virus. The staff has not returned to the campus since confirmation of infection and is now hospitalized. Staff and students are once again reminded to be vigilant in taking personal hygiene measures to avoid being infected as well as to curb the transmission of human swine influenza.

Thank you for your attention and cooperation.
